

BYD ATTO 2

THE SMART CHOICE

ATTO 2

BYD ATTO 2

Smart features, smooth rides and electric vibes for the new generation. Designed for modern lifestyle, the BYD ATTO 2 blends intelligent technology with everyday comfort.

ELECTRIC SUV WITH A STRIKING EXTERIOR

The BYD ATTO 2 adopts the family design language of the dragon face, designed by BYD's Global Design Director, Wolfgang Egger. Short overhangs and powerful curves on the body surface create a sporty look, while the robust exterior emphasises strength and durability.

SHARP LED HEADLIGHTS

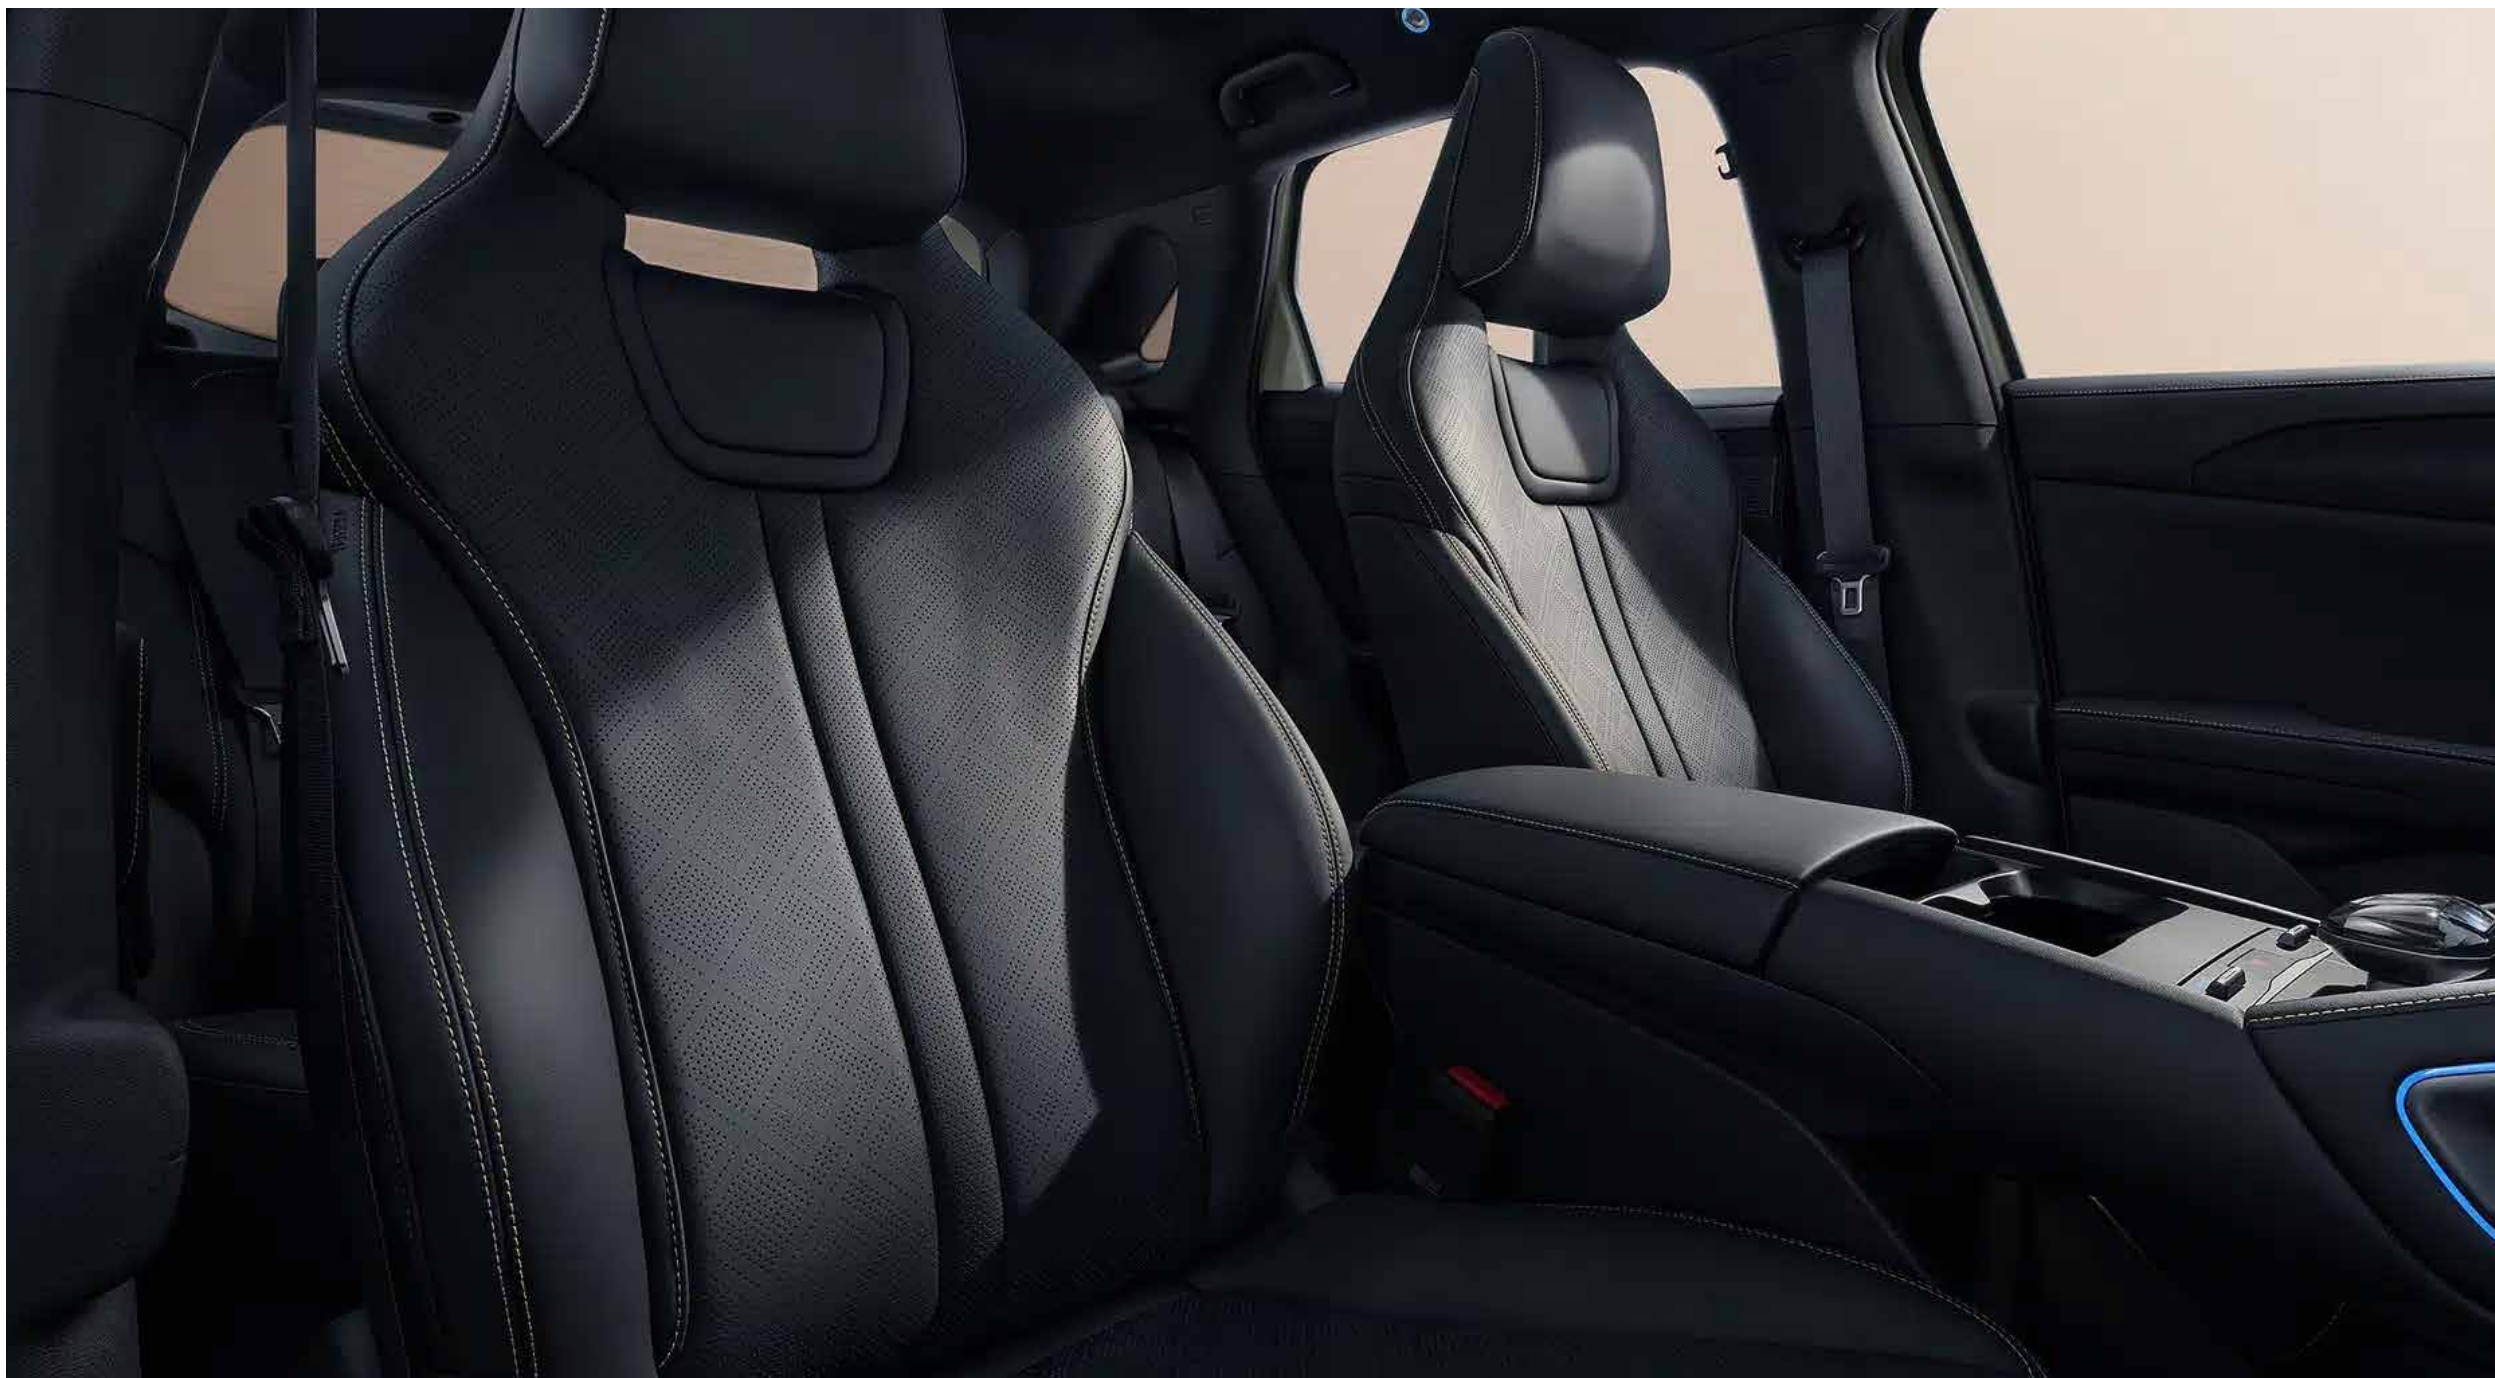

DESIGNED FOR URBAN EXPLORER

MOBIUS RING LED THROUGH TAIL LIGHT

ERGONOMIC SEATING FOR COMFORT & CONTROL

The multifunctional seats offer exceptional comfort, with up to 6-way electronic adjustment to your seating preference and ventilation function to keep you cool during warm days.

HIGH-QUALITY MATERIALS

BYD ATTO 2's interior is crafted with eco-friendly sleek faux leather seats and high-quality materials, delivering a dynamic and mesmerizing cabin experience.

MODERN LIFESTYLE INSPIRED ARMREST

PREMIUM SOUND SYSTEM

GEAR SHIFT STICK

12.8 - INCH ADAPTIVE ROTATING DISPLAY

This SUV keeps you connected and entertained through its rotatable screen, seamlessly integrating navigation, apps and infotainment features during every drive.

DUAL-ZONE BYD INTELLIGENT COCKPIT

8.8" LCD INSTRUMENT CLUSTER

APPLE CARPLAY® & ANDROID AUTO®

50W WIRELESS CHARGING PAD
WITH VENTILATION

SMART STORAGE

This compact SUV has a boot capacity of 380 litres, which can be expanded to 1,320 litres when the rear seats are folded down. Smart in-cabin storage ensures that there's always space for essentials, from suitcases to shopping bags.

GENEROUS SPACE FOR ALL PASSENGERS

BYD ATTO 2 optimises space with its compact battery pack, offering generous headroom and legroom for both front and rear passengers.

V2L FUNCTION

Transform BYD ATTO 2 into a mobile power bank with Vehicle-to-Load (V2L) functionality, enriching your outdoor activities by allowing you to easily plug in a variety of equipment. Power devices like video game consoles, run appliances to enjoy a cup of coffee, or charge gadgets during outdoor escapades—perfect for picnics, camping trips and more.

ADVANCED DRIVER ASSISTANCE SYSTEM (ADAS)

BYD ATTO 2 comes equipped with a complete suite of ADAS features to make every drive safer and more comfortable including parking sensors, a 360° camera, Adaptive Cruise Control, Lane Keep Assist and Traffic Sign Recognition.

BLADE BATTERY

BYD ATTO 2 is equipped with Blade Battery technology, setting new benchmarks and redefining EV safety standards.

ULTRA SAFETY

Blade Battery successfully passed the nail penetration test, the most rigorous way to test the thermal runaway of batteries.

ULTRA STRENGTH

Blade Battery completed an extreme strength test which saw a 46-tonne truck drive right over it, once again raising the bar for power battery safety.

ULTRA DRIVING RANGE

Supports a range of up to 380 km (NEDC).

ULTRA HIGH POWER

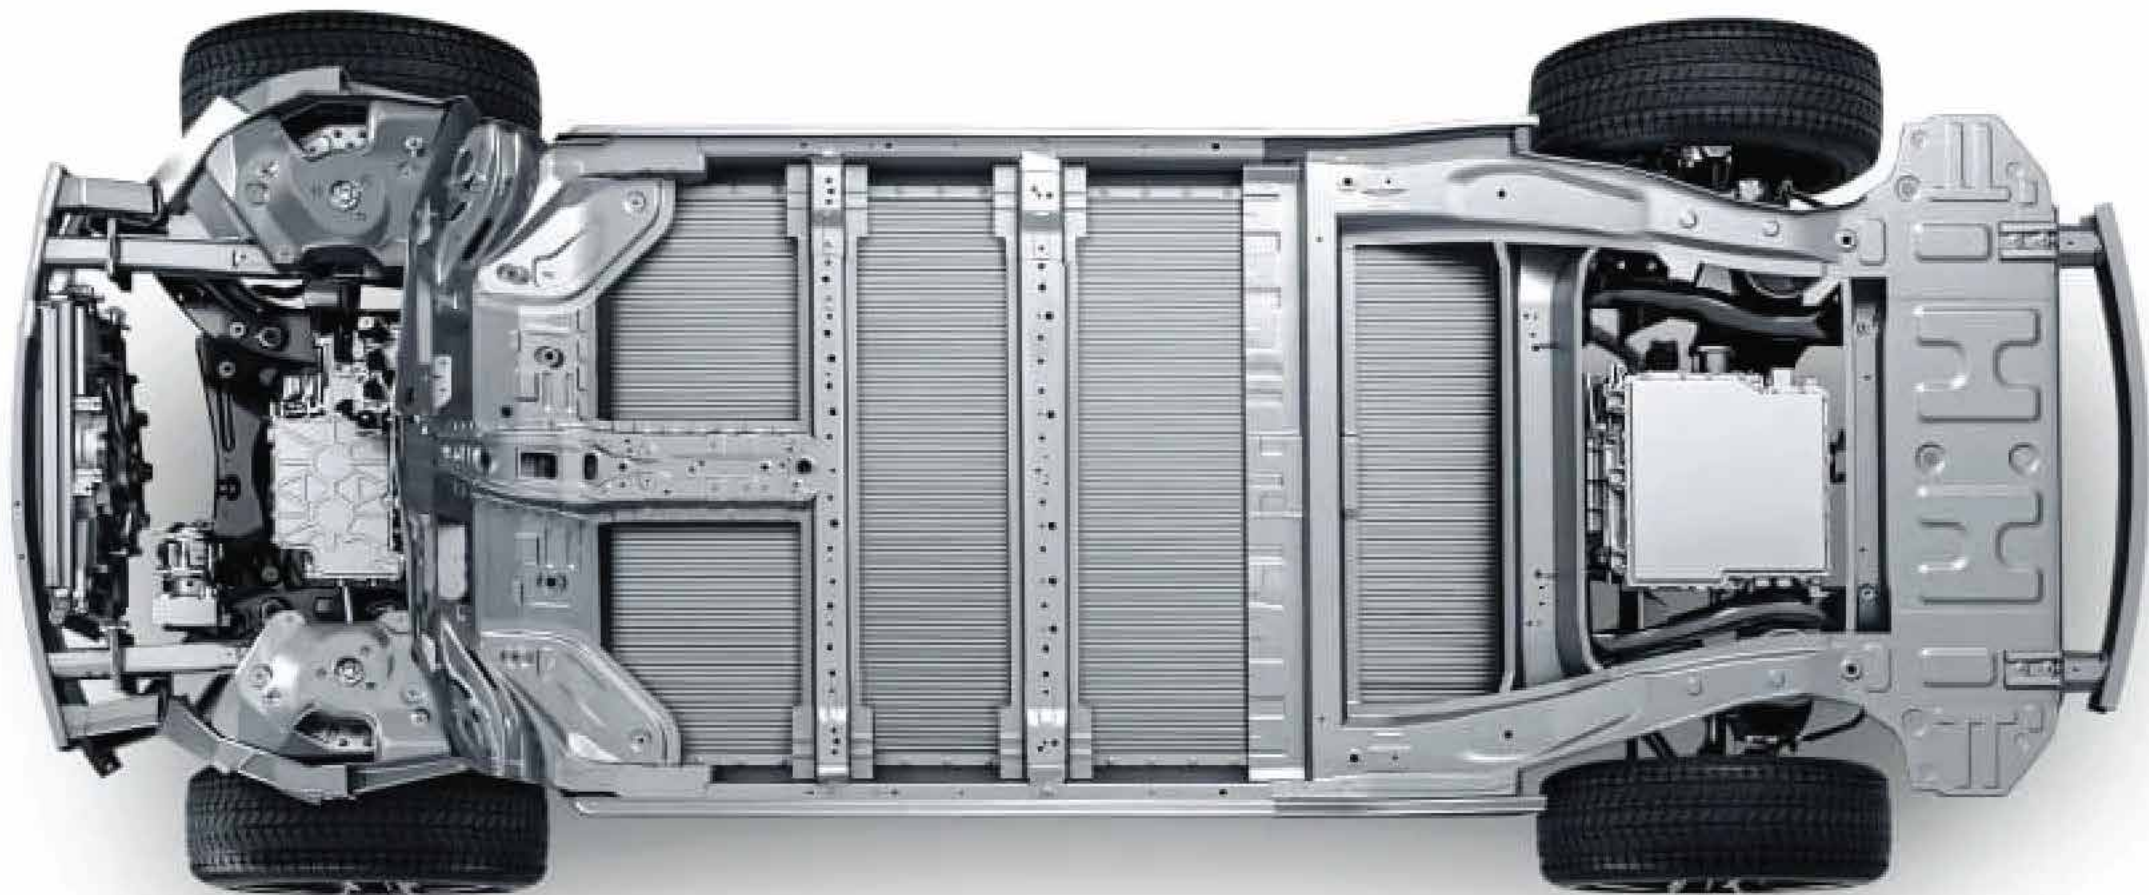

Charges from 30% to 80% in 30 minutes and accelerates from 0–100 km/h in 7.9 seconds.

ULTRA LONG LIFESPAN

The Blade Battery can endure more than 3,000 charging cycles.

BYD E-PLATFORM 3.0

BYD ATTO 2 is equipped with the industry-leading BYD e-Platform 3.0, designed exclusively for pure-electric vehicles and engineered for better intelligence, efficiency, safety and aesthetics.

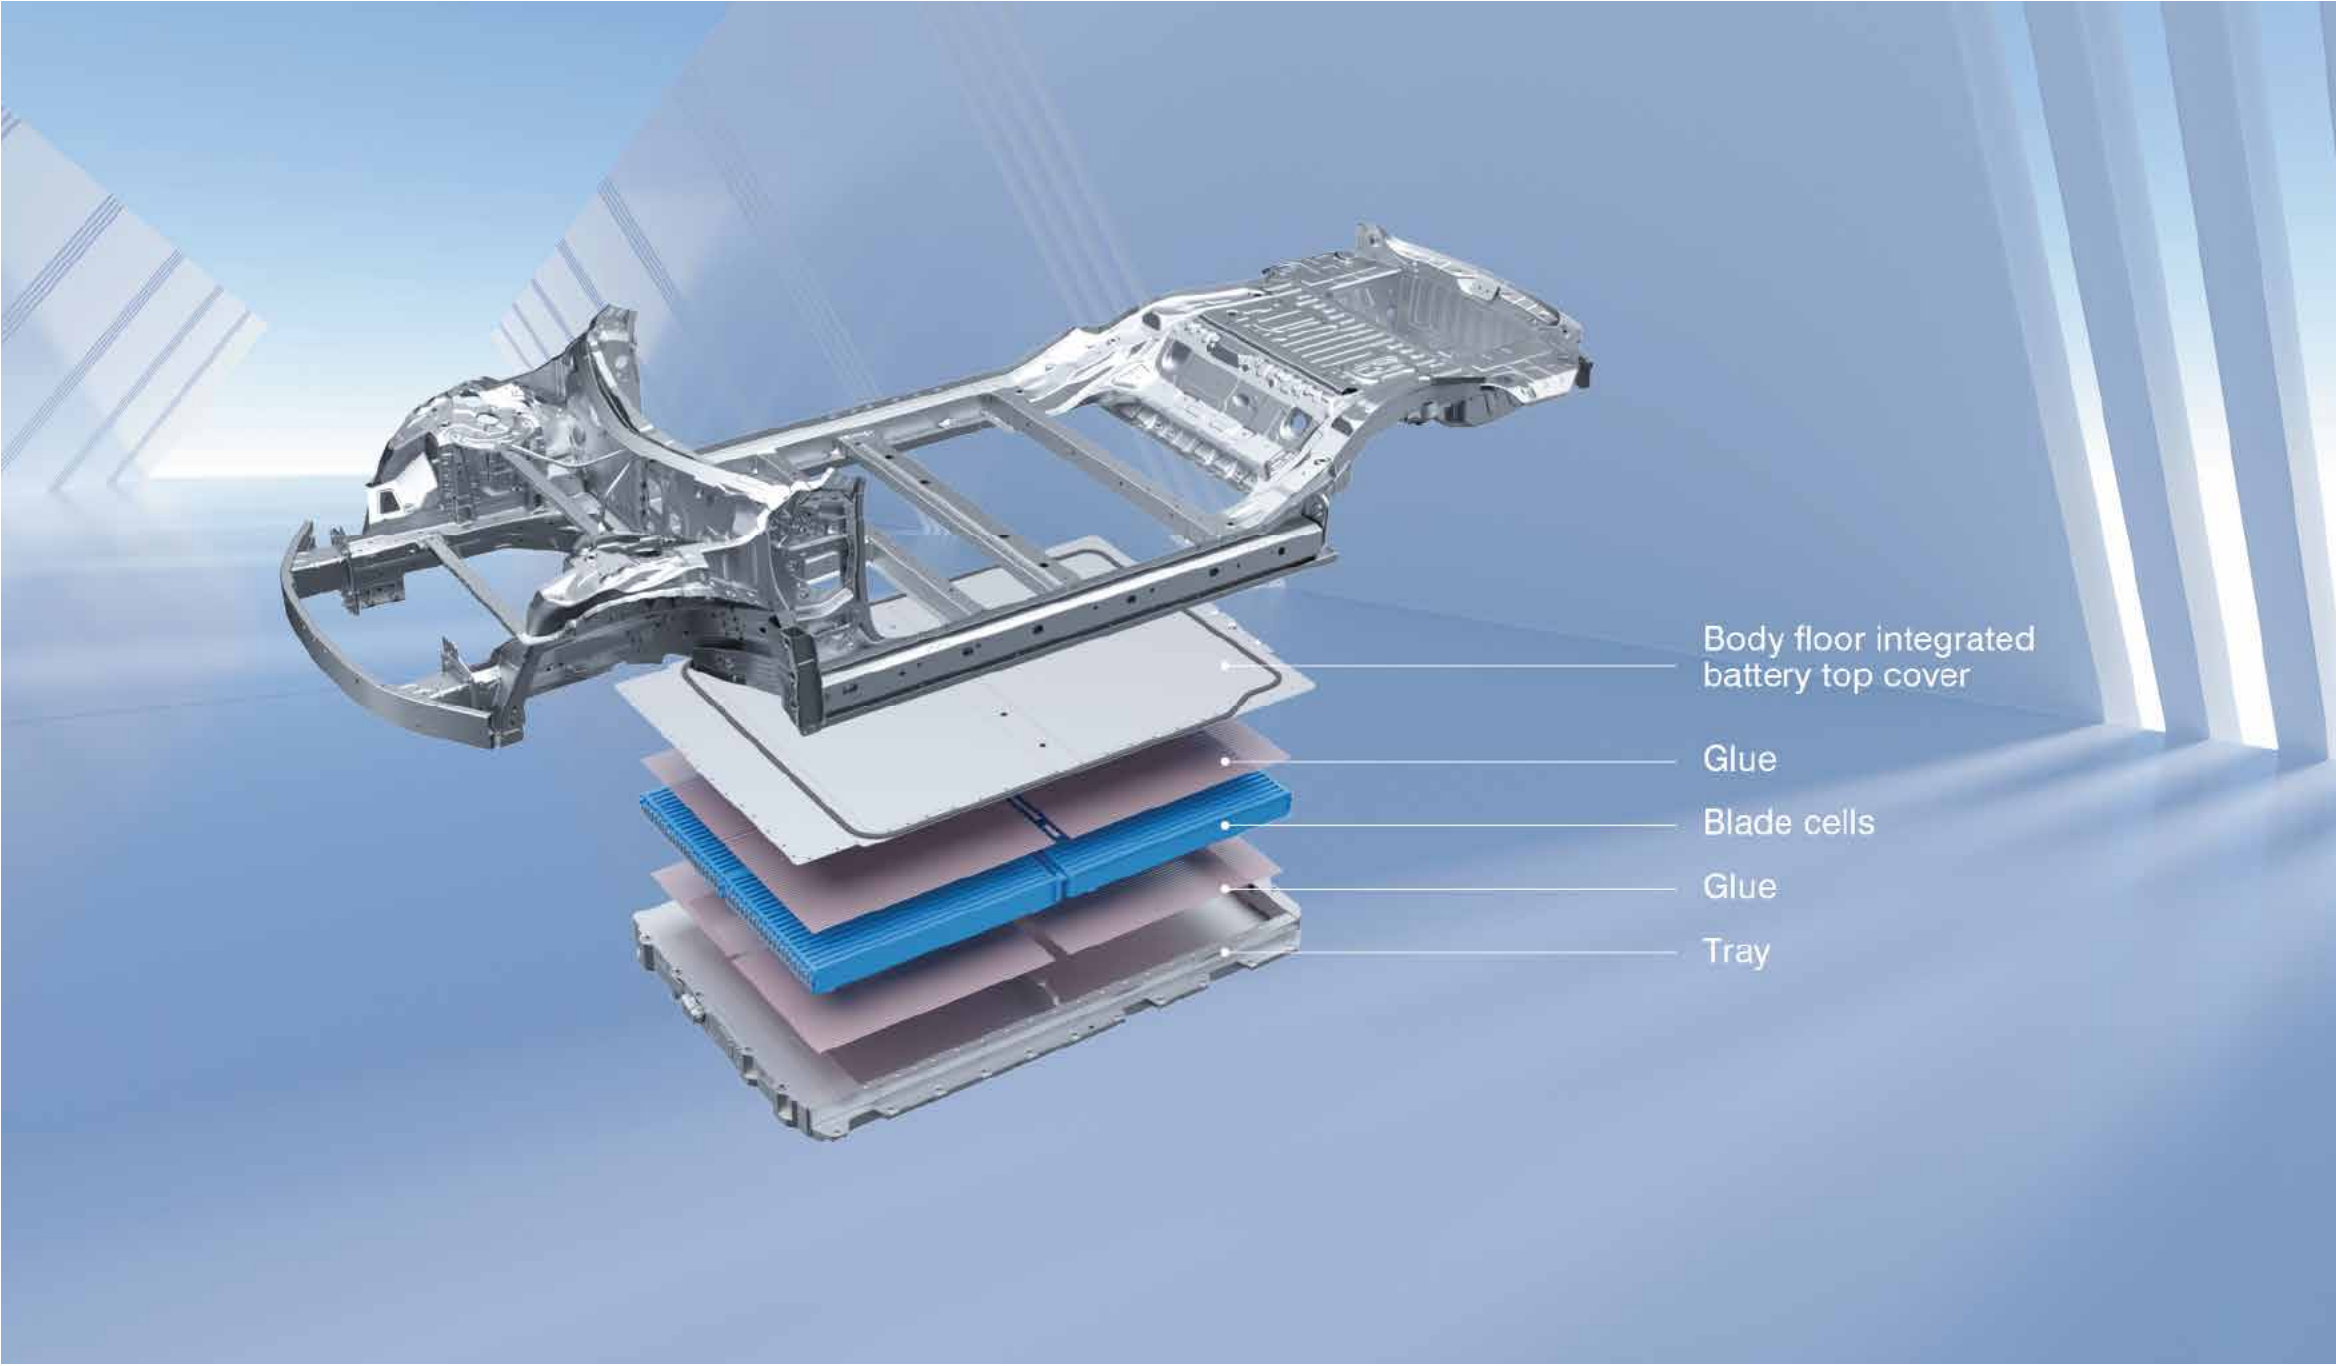

CTB (CELL-TO-BODY) TECHNOLOGY

BYD ATTO 2 is equipped with in-house-developed Cell-to-Body (CTB) construction.

The cutting-edge technology integrates the Blade Battery seamlessly into the car's body, forming a strong 'sandwich' structure that can increase the torsional stiffness of the vehicle body by 32%. This enhances safety, stability and handling.

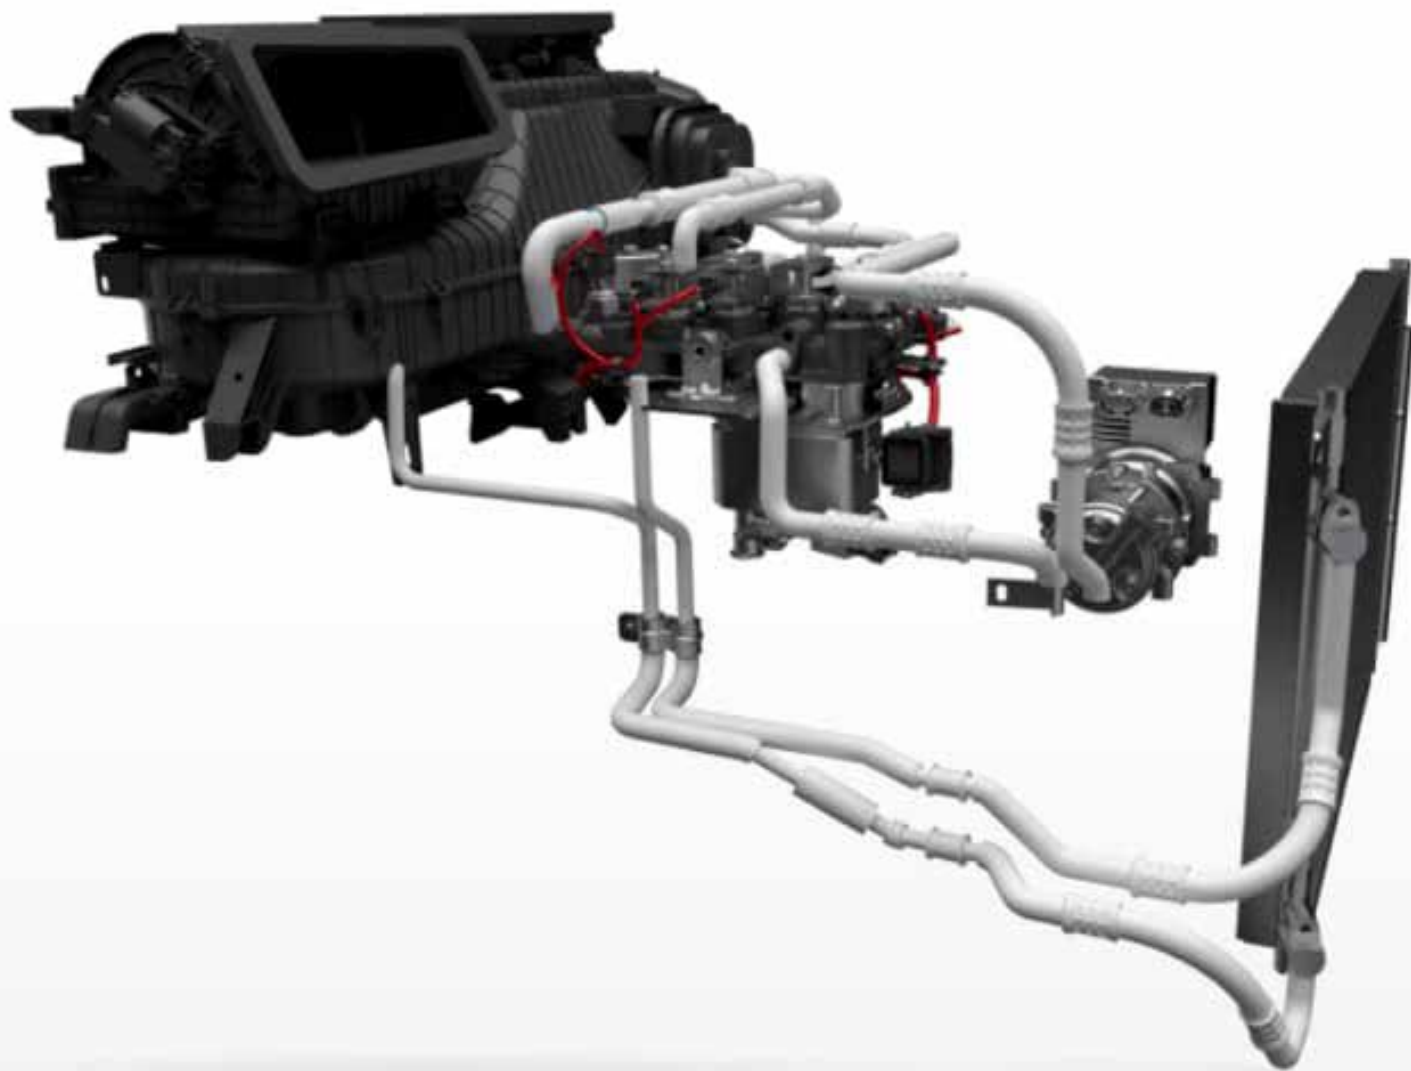

With CTB technology, the Blade Battery is more than an energy source. It is also a structural component capable of withstanding significant force.

8-IN-1 ELECTRIC POWERTRAIN

The unparalleled strength of BYD lies in its comprehensive ownership of the supply chain from idea to build. BYD seamlessly incorporates in every model, including BYD ATTO 2: the VCU, BMS, MCU, PDU, DC-DC controller, onboard charger, drive motor, and transmission. This innovation has led to the world's first mass-produced 8-in-1 electric powertrain system. By expertly combining these elements, BYD maximises space utilisation and enhances energy efficiency to offer a groundbreaking electric SUV driving experience.

HEAT MANAGEMENT SYSTEM

BYD ATTO 2 features an advanced energy-saving heat-pump system as standard. Reliably operating in a broad range of temperatures, the system is designed to utilise residual heat from the car's surroundings, the powertrain, passenger compartment and even the batteries. It enhances the thermal efficiency and reduces energy loss whether heating or cooling. This, in turn, increases the driving range in low temperatures.

SPEED ADJUSTMENT ON CURVE (SAOC)

Speed Adjustment on Curve (SAOC) is an ADAS function enhancing driving comfort. After Adaptive Cruise Control (ACC) / Intelligent Cruise Control (ICC) is activated, SAOC can reduce the driving speed automatically on a curve to enhance driving safety and comfort.

BYD ATTO 2

EXCEPTIONAL WARRANTY

6 YEARS or 150,000 km	8 YEARS or 160,000 km	6 YEARS or 150,000 km
VEHICLE	BYD BLADE BATTERY	LOW VOLTAGE LFP BATTERY

- BYD ATTO 2 specifications are based on specific variants tested under controlled conditions.
- Certain specifications, car variants, features, and options described in this brochure may not be available in Pakistan.
- Mega Motor Company (Private) Limited reserves the right to change product specifications, car variants, features, and services specified herein without prior notice.
- Performance and range figures are based on ideal conditions and may vary depending on electricity load, charger specifications, driving habits, road conditions, climate, and other factors.
- All warranties are offered only for their mentioned time period, or on the car's total mileage, whichever occurs first.
- It is the driver's responsibility to remain alert at all times.
- For further information and updates on features, specifications, and other details, please visit www.byd-mega.com.
